1. The following is an examiner's statement of reasons for allowance: the closest prior art references of record are the patents to Boukobza (6,122,664) and Jariel (6,553,403). However, neither of the references teach or suggest the feature of claims 1, 6, 11, 16, and 29 of utilizing a container that reads a message from a queue and passes configuration information to the component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because various handwritten items appear on figs. 1-7 that are not evenly dark and well defined. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
